TITAN Special is Back!

That's right, it's that time of year! Our Titan laser skin tightening is on sale for the whole month of December for **20% off** regular pricing. This is a non-invasive laser treatment that actually creates collagen growth and firms the elasticity of your skin!

It's like SPANX for your face & neck!

This treatment will firm and tighten your skin, just like spanx undergarments hold in our tummies under those slimmer cut dresses! Only this is long term results. We recommend 3 treatments spaced approximately a month apart to achieve the best results. We can also do loose abdominal skin and other areas of saggy skin on the body. This can be a great way to tighten your skin after losing weight. Most people find that after having Titan, their friends and family notice that they look refreshed and uplifted. They can tell something is different but can't quite put their finger on it. Often people think you've changed your hairstyle or lost weight after having Titan because your face and neck just have a tighter more youthful appearance. We can also do specific areas like around the eyes for that crepe-like skin that gradually becomes thinner as you age. If you are curious about Titan and want to find out if it's right for you, please schedule a complimentary consultation for more information. Now is a great time to get a discount on your Titan maintenance as well! Tell your friends, they don't want to miss out on this!

New Option for Retin-A ~ Refissa!

Obagi has introduced a new product for those of you out there with dry more sensitive skin. It's called Refissa! This is a .05% tretinoin (Retin-A) mixed with an emollient for extra comfort. Instead of suffering through a ton of peeling red skin this winter, why not switch to a lighter version of Retin-A? There's also a \$20 rebate when you purchase Refissa. Ask one of our skin experts if Refissa is the right choice for you.

'Tis the Season to be jolly...so get rid of those ugly veins!

Remove those unsightly veins on your legs with just a few laser treatments. Now that it's long pant season again, it's the perfect time to zap those veins. They've been staring you in the face all summer long, so take care of them before next summer. Veins treatments are 20% off through the end of the year! \$12 per minute instead of the regular \$15.

\$50 Rebate for Botox

That's right, there's another great deal for the holidays! You can get a \$50 rebate on Botox when you get 24 units or more! Don't wait until the last minute, this deal ends when 2009 is over! And remember, we're not open on New Years! So call us soon and get your appointment for more Botox or to try it out for the first time. You will love it!

Vi Peel is here!

We are introducing a new treatment here at Flourish called the Vi Peel. This is the first type of chemical peel that combines TCA, Retin-A, Salicylic acid, Vitamin C, and Phenol (for numbing) to provide amazing results with virtually no pain or discomfort. This can be used on all skin types and you are able to wash and apply make up the next day. Skin will slough a fluffy layer in usually 4 days and you don't have to hide at home during the process! The Vi Peel can improve sun damage, acne, scarring, textured skin and fine lines. Please call us or schedule a consultation if you have any questions about our new Vi Peel.

Take Shape For Life

We have expanded our services to include health coaching through the Take Shape for Life/Medifast. We can now offer comprehensive nutritional programs for weight loss and weight management. Mary has lost 14 pounds in just 3 weeks and knows it works! We want to promote healthier living and help our patients feel better about themselves. This can be a new start for you and your body. It works fast and it's not hard at all! Are you tired of that seesaw dieting, losing 5 pounds and gaining it back? Are your clothes fitting a little snug? Do you want to feel better and have more energy? Give us a call today for more information or to get started on the program. It's easy and it really works!
