

FLOURISH Skin & Laser

LASER HAIR REMOVAL

Have you had that embarrassing moment yet, when someone points out your facial hair? It's usually a child announcing the obvious fact that you now have a mustache! It's been creeping up on you, getting darker and more noticeable. Let's face it. We all worry about the day when we are old and can't see anymore to pluck those hairs out and we'll look more like a billy-goat than a grandma. Well, don't wait any longer! Take care of it now with Laser Hair Removal. The downside to Laser Hair Removal is that it won't work on those white or gray hairs. The laser light is only absorbed in the bulb of the hair follicle when it is a darker color than the surrounding tissue. The laser energy kills the hair and reduces the growth cycle. We suggest taking care of those unwanted hairs right now and you won't have to worry about them in the future. Plus we have a great deal on Laser Hair Removal through the end of February. Buy 3, get the 4th one free! This works for any area of the body too! And please remember to tell your friends about this deal also and save them an embarrassing moment!

ViPeel for Easy Fast Results

Want to smooth the appearance of your skin? ViPeel is a multi-tasking chemical peel that sloughs the topmost layers of skin off in just under a week. There's hardly any aftercare for you and you are able to wash your face and still wear make up. ViPeel is done in a simple 45 minute appointment and you only feel a slight stinging sensation for the first 20 seconds after it is applied to the skin. Most other chemical peels out there are very painful and can require very tedious aftercare. Those are the 2 main reasons most medical spas have steered away from such treatments. Now that ViPeel is here, we no longer have to worry about that. Most of our patients have felt that it was easy to handle during and after the procedure. Plus the results speak for themselves! ViPeel can also be done two or three times in a row, spaced a month apart to achieve an even deeper peel for more smoothing of lines and pigmentation. We had such a great response from our previous sale over the holidays, we've decided to extend the discount through the end of February! Buy 1 ViPeel and save 10%, and now buy 2 and save 15% off the price of \$220 per treatment. Call for more information or to schedule a Digital Visia Skin Analysis to take a deeper look at your skin. Our skin experts can help you determine whether ViPeel is right for you.

Are you tired of the see-saw dieting? Has 20 pounds crept on in the last 10 years? Are you considering going up a size? Are you tired and want to feel better? Do you want more energy? Medifast/Take Shape for Life can help. We offer comprehensive nutritional programs for weight loss and weight management. Mary's lost 25 pounds! Give yourself a new start in 2010.
