

## FLOURISH Skin & Laser

### **Make healthy, beautiful skin your New Year's resolution...**

Jump start your skin care regime with the “#1 Prescription-Strength, Physician-Dispensed Skin Care System”, Obagi Medical Products. You can feel and see remarkable improvements in your skin within the first couple weeks on Obagi. And the best part is, it doesn't stop there! Your skin continues to get better and better over the 6 month initiation phase. Pigmentation and softness are the most noticeable improvements, but within a few months, you'll see an improvement in texture and pore size. By the end of the 6 month cycle you will see dramatic improvements in even deep lines and wrinkles. After guiding you through the 6 month start up and “intense workout for your skin”, we will then help you with a maintenance program to keep your amazing results while using less products and simplifying the regimen. We can always tell who our Obagi users are as soon as they walk in the door.....they have the most amazing vibrant skin. Often we are surprised to find out that they rarely even feel the need to wear any type of foundation or concealer! Isn't that what we all want? Let us make an Obagi believer out of you. Consultations to start on Obagi are complimentary and by purchasing the products with us, every follow-up consult and photo session is also complimentary. Call us today - 360-430-8431

### **Make Obagi Your Skin Fitness Resolution for 2011!**

### **Long Full Lashes + No Wrinkles = Gorgeous Eyes**

It's simple math, right? Fix up your sad eyes with a dynamite duo! Botox for those crow's feet and frown lines and Latisse for those whimpy eyelashes. You will be pleased with the results from the Botox within a few days, and have fuller longer lashes within a few weeks. What more could you ask for? .....A great deal, right!?

Now's your chance! Don't wait because it won't last!

Purchase and use 24 units of Botox and get a Latisse for FREE! We have limited supplies, so when they're gone...they're gone. Call us today to get in for this great deal!

## Newness from BareMinerals

**Try.Believe.Love 6 Piece Starter Kit**– This limited-edition 30 day try-me-kit includes the Original SPF 15 Foundation, the Matte SPF 15 Foundation, Original Mineral Veil, Multi-tasking SPF 20 Bisque Concealer, a Mini Full Flawless face brush, and a Mini Concealer brush. This is a great way to try BareMinerals for only \$20! Great for traveling too! Don't wait to pick up this try-me-kit. We've received a limited shipment and when we're out, we can't reorder. Only available in Fairly Light, Medium Beige, and Medium Tan foundation colors.

**Original Mineral Veil in Mirrored Compact with Brush**– The award-winning Mineral Veil provides the finishing touch to makeup, infusing your skin with softness and light for airbrushed perfection. It gently absorbs oil and minimizes the appearance of fine lines and pores for a fresh, flawless, look all day. And with our easy-to-use mirrored compact, the perfect amount of Mineral Veil is dispensed every time. This product works beautifully with our BUFF & GO retractable face brush. What a deal for just \$29! Every woman needs this in her purse!

## Youthful Hands

Hands are one of the places that really shows your age. We not only get sun damage there, but also lose volume which makes our hands look boney and wrinkly. Now there is a good solution: Radiesse and Limelight. Radiesse is injected into the tops of the hands to stimulate the growth of new collagen and plump the overall appearance. Limelight can then be done to reduce pigmentation and sun damage. Now you can get the Limelight laser treatment for your hands, as well as 3 syringes of Radiesse for only \$1,115. Radiesse is regular \$595 per syringe. Call to schedule your consultation with Dr. Bartolome.

Before and after Radiesse injections to hands
